Oklahoma City, OK 73190
ACKNOWLEDGEMENTS

The members of the Steering Committee of the Strong Heart Study would like to acknowledge that this manual and the initiation of this study would not have been possible without the contributions and support of a large number of individuals and organizations. First, in the preparation of the manual, we would like to acknowledge contributions and in some cases interview forms or instruction sheets from the following studies: Framingham, CARDIA, ARIC (Atherosclerosis Risk in Communities), CHS (Cardiovascular Health Study), The Longitudinal Diabetes Study of the Phoenix Epidemiology and Clinical Research Branch, National Institute of Diabetes, Digestive and Kidney Diseases, National Institutes of Health and the Diabetic Renal Disease Study. The Steering Committee also wishes to express its appreciation to the twelve Tribal Communities, whose approval and support have been so willingly offered and whose members are participants in the Strong Heart Study. We wish to thank the Indian Health Service for providing us with access to medical records and reports which have facilitated the planning and execution of the study. Finally, we wish to thank the staff of the Clinical and Genetic Branch, Epidemiology and Biometry Program, Division of Epidemiology and Clinical Applications Branch of the National Heart, Lung and Blood Institute for making this study possible.

2. Mortality Survey

2.1 Eligibility Criteria

2.2 Definitions of CVD Deaths

2.2.1 Definite Fatal Myocardial Infarction
2.2.2 Definite Sudden Death Due to Coronary Heart Disease (CHD)
2.2.3 Definite Fatal CHD
2.2.4 Possible Fatal CHD
2.2.5 Definite Fatal Stroke
2.2.6 Possible Fatal Stroke
2.2.7 Definite Fatal CHF
2.2.8 Possible Fatal CHF
2.2.9 Other Fatal CVD

2.3 Definitions of Abnormal ECG, Abnormal Enzymes and Chest Pain

2.3.1 Abnormal ECG
2.3.2 Abnormal Enzymes
2.3.3 Prolonged Cardiac Pain

2.4 Identification and Confirmation of CVD Deaths

2.4.1 Procedure
2.4.2 Review of Medical Charts of the Decedents
2.4.3 Informant Interview
2.4.4 Death Occurring Outside the Study Community

3. Morbidity Survey

3.1 Eligible Population

3.2 Surveillance Events

3.3 Diagnostic Criteria: Non-Fatal Myocardial Infarction

3.3.1 Confirmed Non-Fatal MI
3.3.2 Possible Non-Fatal MI
3.3.3 ECG Tracing to be Photocopied

3.4 Diagnostic Criteria: Non-Fatal Stroke

3.4.1 Definite Non-Fatal Stroke
3.4.2 Possible Non-Fatal Stroke
3.4.3 Unequivocal Laboratory Findings
3.5 Procedure for Identification of Incident and Recurrent Cases 39

3.6 Rationale for Selection of Events for the Morbidity Survey 42

4. Procedures for Training and Quality Control of Mortality and Morbidity Survey 43

4.1 Training 43

4.2 Quality Control 43

4.2.1 Ascertainment of Cause of Death 43
4.2.2 Data Abstraction 43

5. Clinical Examination 44

5.1 Introduction 44

5.2 Components of the Clinical Examination, Endpoints and Risk Factors 45

5.2.1 Components of Clinical Examination 45
5.2.2 Endpoints and Risk Factors 46

5.3 Recruiting 50

5.4 Personal Interview 51

5.4.1 Components of Personal Interview 51
5.4.2 Guidelines for Interviewers 52
5.4.3 Training & Quality Control of Interviewers 57

5.5 Rationale for Measurements 58

5.5.1 Blood Pressure 58
5.5.2 Measurement of Body Fat 58
5.5.3 Anthropometric Measurements 59
5.5.4 Measurements of Peripheral Vascular Disease 60
5.5.5 Physical Activity 60
5.5.6 Examination of the Heart, Lungs, Carotids and Neck Veins 61
5.5.7 Electrocardiograms 61
5.5.8 Overview of Laboratory Measurements 61

5.6 Procedure for Glucose Tolerance Test (GTT) 68

5.7 Physical Examination 69

5.7.1 Anthropometry 69
5.7.2 Training and Certification for Anthropometry 71
5.7.3 Sitting Blood Pressure 74
5.7.4 Ankle Systolic Blood Pressure 79
5.7.5 Electrocardiogram 81
6. Laboratory Procedures

6.1 Procedure for Blood Drawing

6.1.1 Accuchek Procedure
6.1.2 Venipuncture Procedure

6.2 Sample Preparation, Storage and Shipping

6.2.1 General Rules for Handling Sample for Lipid Measurement
6.2.2 Processing of Blood Samples and Urine Sample
6.2.3 Blood Processing
6.2.4 Equipment and Supplies
6.2.5 Shipping

6.3 Laboratory Procedures

6.3.1 Plasma Lipids
6.3.2 Apolipoproteins
6.3.3 Glucose
6.3.4 Insulin
6.3.5 Urinary Albumin
6.3.6 Urine Creatinine
6.3.7 Fibrinogen
6.3.8 Glycated Hemoglobin
6.3.9 Glycated apoB
6.3.10 DNA

6.4 Quality Assurance Program for Laboratory Measurement

6.5 Sample Handling and Storage at the General Laboratory

6.5.1 Sample Handling for Refrigerated Shipment
6.5.2 Sample Handling for Frozen Shipment

6.6 Infection Control Policy

Appendix

1 The Strong Heart Study Principal and Co-Investigators
2 Organizational Chart of the Strong Heart Study
3 a. The Strong Heart Study Other Key Personnel
b. Consultant
4 Study Communities and Codes
5 a. Codes for IHS Facilities by Area and Service Unit
b. Non-IHS Hospitals and Codes
6 a. Personnel Codes
   b. Confidentiality Pledge
7 Death Certificate Form and Instructions
8 Final Decision Form I and Instructions
9 Mortality Survey Medical Records
   Abstract Form and Instructions
10 Non-IHS Physician Questionnaire and Instructions
11 Informant Interview Form and Instructions
12 Final Decision Form II
13 Flowchart for Mortality Survey
14 Checklist for Mortality Survey
15 a. Sample Letter to Informant: Unknown
   Telephone Number
   b. Reply Postcard from Informant with
   Telephone Number
16 Chart Request Form
17 Interview Form for Non-Participants
18 a. Morbidity Survey Medical Abstract Form
   and Instructions
   b. Possible Myocardial Infarction ECG Analysis
   Field Sheet
   c. Possible Myocardial Infarction ECG Analysis
   ECG Center Sheet
   d. Morbidity Survey Decision Form
19 A Sample of the Consent Form
20 a. Checklist for Clinical Examination Form
   b. Post Examination Activity
21 Flow Chart for Clinical Examination
22 Reasons for Nonparticipation Form
23 a. Personal Interview Form (I and II) and
   Instructions
   b. Tribal Codes
   c. Codes for Cause of Death in Family History
   and codes for Cancer
24 a. Medical History Form and Instructions
   b. Drug Codes
   c. Aspirin Containing Products
25 Physical Activity Form and Instructions
26 GTT Checklist
27 Blood and Urine Sample Collection Checklist
   a. Routine Blood and Urine Sample Collection
   Checklist
   b. Quality Control Blood Collection Checklist
   c. Flow of Samples for Two Participants
   Using the Workstation
   d. Cold Sample Shipment Slip
   e. Frozen Sample Shipment Slip
   f. Urine Sample Log
   g. Insulin Log
   h. DNA Log
   i. Fibrinogen Log
28 Physical Examination Form
